Africa in Scotland, Scotland in Africa provides scholarly, interdisciplinary analysis of the historical and contemporary relationships, links and networks between Scotland, Africa and the African diaspora. The book interrogates these links from a variety of perspectives – historical, political, economic, religious, diplomatic, and cultural – and assesses the mutual implications for past, present and future relationships. The socio-historical connection between Scotland and Africa is illuminated by the many who have shaped the history of African nationalism, education, health, and art in respective contexts of Africa, Britain, the Caribbean and the USA. The book contributes to the empirical, theoretical and methodological development of European African Studies, and thus fills a significant gap in information, interpretation and analysis of the specific historical and contemporary relationships between Scotland, Africa and the African diaspora.
